### What's New

#### Supplemental Savings Plan (SSP) Pay Period Edits

- A new information edit **ER4062** has been created for SSP reporting that will notify the district that a member has made a change to at least one Contribution Category. The edit will trigger if the reported Pay Period Begin Date is on or after the effective date of the new Contribution Category. Contributions should be taken and reported based on the district's most recent SSP Deferrals Report. *(TRS Reference #107237)*
- A new fatal edit **ER5087** has been created to validate the employer's intention to contribute either Employer Matching Contributions (09) and/or Employer Nonelective Pretax Contributions (10). Employer contributions should not be reported unless indicated on the SSP Employer Participation Agreement on file with TRS. The edit will trigger if Employer Contributions are reported in a Contribution Category (09 or 10) not indicated on the Agreement. If any changes are needed, complete an amendment to the Agreement after authorization by your governing body and upload it to TRS. *(TRS Reference #132125)*

#### Resolved Issues

**Past Due and Upcoming Notice Report:** This reminder did not always include all missing defined benefit pay period reports when a defined contribution report had been received. This issue is now resolved. The email reminder should now include all past due defined benefit pay period reports. *(TRS Reference #138348; HT 30021715)*
