Post-Retirement Days Worked
(for July 1, 2021 – June 30, 2022)

In accordance with Public Act 102-0709, you are currently limited with post-retirement employment to 140 days or 700 hours in a TRS-covered position. **The 140 days/700 hours limit is in effect through June 30, 2022.** Paid sick, personal and vacation days are subject to the post-retirement employment limitation. For 2022-23, the post-retirement limits will be 120 days/600 hours. Beginning July 1, 2023, the limit will revert to 100 days/500 hours.

In order for TRS to track the time that you work in post-retirement employment, TRS-covered employers will report your time worked in hours. This will allow TRS to notify employers and annuitants when you are close to exceeding the limits and if you have exceeded the limits.

Count time worked and the use of accumulated leave time toward the hours limitation. Each full day (five or more hours) is recorded as five hours, even if you worked more than five hours on that date. For partial days (fewer than five hours), the actual number of clock hours worked is recorded. Count hours to the nearest quarter hour.

Circle each day worked.
