

Total Retiree Advantage Illinois (TRAIL) Summary

January 1, 2018 – December 31, 2018

This summary provides current TRAIL premiums and accessibility information for January 1, 2018 through December 31, 2018.

What is a Medicare Advantage with Prescription Drug Coverage Plan?

A Medicare Advantage with Prescription Drug Coverage (MAPD) plan is a healthcare plan administered by a private insurer who processes and pays your health insurance and prescription drug claims. That means that federal Medicare no longer pays your healthcare or prescription drug claims but will instead subsidize the MAPD plan with the Medicare premiums you pay. Although federal Medicare no longer pays healthcare claims, you still need to pay your Medicare premiums in order to remain enrolled in the MAPD plan. If you do not pay your Medicare premiums, your health and prescription drug coverage through the Teachers' Retirement Insurance Program (TRIP) will terminate.

Listing of current health care plan providers

Please call the toll-free number or visit the plan online for specific coverage details.

Note: TRAIL only offers MAPD plans.

HMOs	Administrator's Address	Customer Service Phone Numbers	Website Address

TRAIL Eligibility and Enrollment

Members or survivors of members must be:

- receiving a TRS monthly benefit,
- living in the United States or a U.S. territory, and
- eligible and enrolled in Medicare Parts A and B on or before September 30, 2017 due to age or disability.

Special Information about TRAIL Medicare Advantage Part D (MAPD) Plans

Participants retain Medicare coverage and continue to pay Medicare Part B premiums.

If applicable, IRMAA (Income-Related Monthly Adjustment Amount) applies to both Medicare Parts B and D. Therefore, members who pay an additional premium for their Medicare Part B coverage are the same members who will be charged the Medicare Part D IRMAA amount. This is required to be paid to remain in the plan.

The TRAIL MAPD plan includes prescription drug coverage. Participants should **not** enroll in a separate Medicare Part D plan. Part D is coordinated within the MAPD plan.

The TRAIL Medicare Advantage plan offers wellness/clinical programs at no additional cost. This includes Silver Sneakers fitness, disease management, and other discount programs.

Participants use one identification card for medical providers, hospitals and pharmacies.

Members who are newly eligible **must** elect a state-sponsored TRAIL MAPD plan to continue coverage after December 31. Coverage will be **terminated** if members do not respond. Newly eligible members are notified by CMS that they must enroll in a TRAIL plan.

Members who are already enrolled in the TRAIL MAPD plan can enroll an eligible dependent during open enrollment in the fall or change their coverage to a new carrier.

Federal Medicare law requires all plans to send new ID cards annually to participants.

Medical Contributions

TRAIL MAPD Monthly Contributions Effective Jan. 1, 2018				
	Humana HMO	Coventry Advantra HMO	Health Alliance MAPD HMO	UnitedHealthcare PPO
